

Repealed by Ord. # 237

Ordinance No. 276 A

An Ordinance requiring the installation of and the adoption of plans and specifications for Septic Tanks within the corporate limits of the Town of Kirkland, and requiring the appointment of ~~a health officer and an inspector~~, and providing penalty for violation of this ordinance.

Be it Ordained by the Town Council of the Town of Kirkland
Section 1: That it is hereby required of every person, firm, or corporation, within the town of Kirkland, owning or operating, or maintaining any dwelling, hotel, store, garage, or other building, structure, or premises from which there is sewage, to have and keep in proper repair, a septic tank according to the plans and specifications in this ordinance provided.

Section 2: That the plans and specifications shall be as follows: Septic tanks may be constructed of either wood or concrete, but must have a minimum capacity of thirty (30) gallons per person. Tanks may be of either single compartment or double compartment construction, but if construction is of wood, all joints must be tight and of such nature as to be acceptable to the Town Engineer; Effluent: the effluent may not be discharged on the city streets, alleys or other public property, but must be dissipated either through a system of drain tile of one of the plans shown, using not less than one foot of drain tile per gallon, or by discharging into a blind, or open well on the immediate premises. All installations are subject to approval by the Town Engineer; Plans and specifications are on file with the Council.
Town Clerk.

Section 3: The mayor shall appoint an inspector, whose duties it shall be to inspect such septic tanks and make what regulations he deems for the best interest of public health and sanitation generally.

Section 4: Any person, firm, or corporation violating any
