Section 1. There is hereby added to Chapter 5.74, Kirkland Municipal Code, a new section to read as follows:

Section 5.74.50. Inspection fees for public improvements to be paid prior to acceptance--amount of fee established.

Whenever any construction work, public improvement or other activity is required or permitted to be performed upon any public right-of-way, or within or upon any property which, upon completion of said work or activity, is to be conveyed or dedicated as public right-of-way or public easement, the City shall not accept for maintenance or otherwise, such work, improvement, facility or activity until there has been paid to the City by the person required or permitted to perform such work or activity, an amount equal to three percent of the estimated cost of construction of such work, improvement, facility or activity as and for reimbursement to the City for its cost of inspection of such work, improvement, facility or activity. Estimated cost of construction shall be determined by the Director of the Department of Public Works.

Provided, however, that this section shall not apply to:

1. Work performed under public works construction contracts let by the City pursuant to Chapter 3.85 Kirkland Municipal Code; or
2. Work performed in conjunction with a single family residential structure when the building permit was issued to the owner and occupant thereof; or
3. So much of such work performed under a developer's extension agreement (RCW Chapter 35.91 facilities agreement) as is determined by the Director of Public Works to be for the benefit of the Kirkland water or Kirkland sewer system rather than for the benefit of the property being concurrently subdivided, developed or improved by the signors to the developer extension agreement.
