INTERLOCAL AGREEMENT
RELATED TO
SOLID WASTE MANAGEMENT AND ENHANCING SUSTAINABILITY IN FOOD SERVICE
FOR LAKE WASHINGTON SCHOOL DISTRICT

This Interlocal Agreement ("Agreement") is entered into pursuant to the Washington Interlocal Cooperation Act, chapter 39.34 RCW, by and between the cities of Kirkland ("Kirkland") and Redmond ("Redmond") and the Lake Washington School District ("LWSD"), each a municipal corporation of the State of Washington. This Agreement shall be effective upon final approval by all three parties hereto.

WHEREAS, State Local Solid Waste Financial Assistance ("LSWFA") grant funds are allocated to Washington cities by the Department of Ecology ("Ecology") for the purpose of promoting recycling, waste reduction, and sustainability efforts; and

WHEREAS, Ecology and the parties hereto wish to continue to collaborate on recycling, waste reduction, and sustainability projects; and

WHEREAS, Ecology and Kirkland have entered into a Solid Waste Management Local Solid Waste Financial Assistance Agreement, No. WSMLSWFA-2021-KirkPW-0063 ("Financial Assistance Agreement"), attached hereto as Attachment A, which Financial Assistance Agreement includes anticipated "Task Number 1" funding in the amount of \$73,157.22 related to data gathering ("Task Number 1") and the creation of a Food Service Sustainability Roadmap ("FSSR"). The FSSR will identify opportunities for enhanced sustainability in Food Services, with piloting to determine feasibility and potential implementation as time and budget allow, to serve students in the Lake Washington School District ("LWSD"), including students residing in the cities of Kirkland and Redmond; and

WHEREAS, such \$73,157.22 in Task Number 1 funding consists of \$54,867.91 in Ecology grant funding contingent on 25% in City Match Funding Amounts as set forth in Attachment B hereto (the "City Match Funding Amounts"); and

WHEREAS, Kirkland and Redmond wish to provide the City Match Funding Amounts; and

WHEREAS, the LWSD will work in good faith to provide regular reporting and support in connection with the development and potential implementation of the FSSR; and

WHEREAS, this joint undertaking must be approved by the legislative bodies of each of the parties hereto.

NOW, THEREFORE, the Parties agree as follows:

1. **DURATION.** This duration of this Agreement shall be the same period necessary to complete Task Number 1 of the Financial Assistance Agreement or December 31, 2023, whichever occurs sooner. The duration of this Agreement may be extended with agreement of the parties.

2. **PURPOSE.** The purpose of this Agreement is to represent Kirkland, Redmond, and the LWSD's voluntary commitment to work together in good faith to further the mutual interests of the parties in promoting recycling, waste reduction, and sustainability efforts through the development of an FSSR to serve the Lake Washington School District. The purpose may include piloting and potential implementation of the FSSR, as time and budget allow. Redmond agrees to be bound by the terms and conditions of the Financial Assistance Agreement in support of Task Number 1 that are applicable to Kirkland as the "Recipient" under that agreement. Redmond also agrees that it will provide Ecology and Kirkland with proof of compliance with such terms and conditions upon request by Ecology or Kirkland. LWSD agrees to participation and support of the FSSR in good faith, but is not bound by any agreements, obligations, terms, or conditions included in the Financial Assistance Agreement and may discontinue participation without penalty at any time. Kirkland reserves the right to seek a separate grant scope document with LWSD outlining conditions and milestones prior to provision of funding assistance and LWSD agrees to work in good faith with Kirkland toward such agreement.
3. **ADMINISTRATION.** No new or separate legal or administrative entity will be created to administer the provisions of this Agreement. Instead, Kirkland will function as the Administrator for Task Number 1. The FSSR will be prepared by a consultant selected and compensated by Kirkland with consultant scoping and selection input from Redmond and the LWSD.
4. **POWERS.** The Administrator shall have the power to make recommendations to the parties concerning all matters related to Task Number 1 of the Financial Assistance Agreement and as may be necessary to accomplish the purpose of this Agreement.
5. **SCOPE.** The scope of this Agreement is Task Number 1 as set forth in the Financial Assistance Agreement.
6. **FINANCING.** Kirkland and Redmond will each provide the City Match Funding Amounts related to Task Number 1 of the Financial Assistance Agreement as set forth in Attachment B. Kirkland will invoice Redmond annually for its portion of the city matching amounts as set forth below:

[Invoice 1 Date]: Billing period: start date of the agreement through 12/31/22.

[Invoice 2 Date]: Billing period: 1/1/23 through no later than 12/31/23.

Redmond agrees to pay Kirkland the invoiced amounts within 30 days of receipt of each annual invoice.

SCOPE OF WORK

Task Number: 1 Task Cost: \$73,157.22

Task Title: General Planning

Task Description:

Lake Washington School District (LWSD) serves about 30,000 students from Kirkland, Redmond, Sammamish, and northeast King County. LWSD has been working on sustainability, and food service could be improved. RECIPIENT, through a contractor, will support this via data gathering and creation of a Food Service Sustainability Roadmap (FSSR), with piloting or implementation as time and budget allow.

ACTIVITY: Planning

A contractor will create a FSSR to provide data and planning to support key initiatives (current waste profiles, case study reviews, reduction in volume, etc.).

LWSD has agreed to provide regular reporting to RECIPIENT to ensure the FSSR is turned into action, with planning and programs that are sustainable long-term. Much of this reporting will occur after the grant.

Goals of the FSSR include: Improve consistency across the LWSD in policies and procurement to reduce waste in food service; analyze food waste data to inform decision-making and procedures; reduce recycling and compost contamination; maintain waste programs for years after they have been launched through better hand-off coordination; reduce the use of single-use items; educate better around “take only what you’ll eat”; and resume food share tables after COVID-19 pandemic conditions subside.

Who will perform the work:

A consultant will be hired to create the FSSR. It will cover things like switching to bulk milk, durable silverware, food share tables, and more. Key stakeholders across the LWSD will use the document to set tangible goals, create milestones, and develop monitoring and enforcement processes in support of sustainability policy setting.

Reimbursement for costs incurred by contractors to implement Local Solid Waste Financial Assistance (LSWFA) funded activities identified in this task are subject to the same eligibility and reimbursement requirements as the RECIPIENT, and require ECOLOGY approval.

RECIPIENT will oversee and coordinate among itself, the contractor, and LWSD.

ACTIVITY: Implement the FSSR

If time and budget allow, items may be piloted in support of or occur as a result of the FSSR. These may be conducted by the RECIPIENT and/or consultant and include: durable items, equipment, and accessories to replace single-use items; improved communication with students and school employees, in coordination with King County Green Schools; new signage and communication materials; food waste measuring equipment (scales, etc.); compost/recycling equipment in lunchrooms (large containers, etc.).

This task includes development and distribution of promotional materials. RECIPIENT is encouraged to work with their

ECOLOGY grant manager when developing promotional materials, and provide a draft copy for review and approval 10 business days prior to production and distribution of materials. RECIPIENT is reminded of provisions 3 and 19 of the General Terms and Conditions of this Agreement.

Eligible costs include:

- RECIPIENT time and benefits.
- Consultant time and costs necessary to perform the scoped work.
- Tools, equipment, and educational materials for pilots to support or implementation of the FSSR.
- Costs not listed here but pre-approved in writing by ECOLOGY.

Costs not eligible for reimbursement:

- Overtime compensation (calculate instead at regular rate of pay).
- Bins for landfill-bound materials.
- Costs not specifically identified in the task’s scope of work or pre-approved in writing by ECOLOGY.

Task Goal Statement:

The goal of this task is to reduce pollution and natural resource use, as well as save money or at least set up sustainable systems. RECIPIENT intends to do this by reducing food service waste within the Lake Washington School District.

Task Expected Outcome:

With the Task Cost, RECIPIENT expects first and foremost to produce a final draft Food Service Sustainability Roadmap planning document. This document will include the amounts for potential waste avoidance and cost savings or shifts, and will support recommended waste reduction changes for the school district. RECIPIENT also anticipates reducing solid waste by approximately 200 pounds (such as by perhaps replacing utensils or milk cartons with durables). The RECIPIENT, with the help of its consultant, will measure the above by tallying the weight of items that previously would have been disposed but get replaced during the two-year grant period.

Deliverables

1.1	Task Expected Outcomes are the deliverables and achieved incrementally throughout the biennium.	

SCOPE OF WORK

Task Number: 2 Task Cost: \$210,108.24

Task Title: CROP IMP Waste Prevention Campaign

Task Description:

RECIPIENT, in conjunction with a consultant and partner cities Bellevue, Redmond, and Bothell, and hopefully community organization(s), will provide a regional (Eastside) campaign for residents to reduce waste and increase reuse of items. This will help “reset” social norms surrounding waste reduction and reuse, which may be especially important as communities approach a “new normal” as the COVID-19 pandemic begins to subside, and laws impeding items like single-use plastics come into effect.

Work to perform may include:

- Create and implement a campaign to reduce or eliminate one-time use of items where feasible. This includes support of the Chapter 70A.245 Revised Code of Washington (RCW) requirements around disposable serviceware at food service businesses, the Chapter 70A.530 RCW law for reusing bags (and education on health risk myths), reusing bottles, and replacing other disposal-oriented items with durables (wipes with washcloths).
- Promotion of the campaign via large-scale regional media like web, print, radio and television.
- Use of community-based social marketing strategies to reaffirm zero waste behaviors in the residential sector. This may include and is not limited to regional training classes, a virtual behavior change challenge, partnerships with community organizations, and tabling at events.
- Provision of material assistance/durable alternative products to residents to facilitate the use of durable goods.
- Evaluation of the tangible effects of the outreach in terms of pounds of waste prevented. Methods will include surveys of participants to gauge waste tossed before and after education, and surveys to gather feedback on durable products provided and their impact on recipients' waste.

Who will perform the work:

- RECIPIENT and its partner cities will hire a consultant to assist with program development, branding, messaging, implementation, and evaluation.

Reimbursement for costs incurred by contractors to implement LSWFA funded activities identified in this task are subject to the same eligibility and reimbursement requirements as the RECIPIENT, and require ECOLOGY approval.

This task includes development and distribution of promotional materials in a variety of formats to encourage participation. RECIPIENT is encouraged to work with their ECOLOGY grant manager when developing promotional materials, and provide a draft copy for review and approval 10 business days prior to production and distribution of materials. RECIPIENT is reminded of provisions 3 and 19 of the General Terms and Conditions of this Agreement.

Eligible costs include:

- RECIPIENT time and benefits.
- Consultant time and costs necessary to perform the scoped work.
- Media buys and creation.
- Purchase of subsidized outreach items (see note below).

Agreement No: SWMLSWFA-2021-KirkPW-00063
 Project Title: IMP City of Kirkland
 Recipient Name: CITY OF KIRKLAND

- Costs not listed here but pre-approved in writing by ECOLOGY.

Items that are considered entertainment are not eligible for reimbursement such as gift cards and movie tickets. LSWFA allows outreach materials that are:

1. Pre-approved by ECOLOGY.
2. Relevant to the task and support the task’s message.
3. Supportive of an environmental action.
4. Received by a “participant” in the LSWFA program or task.
5. Minimal in cost.

Costs not eligible for reimbursement:

- Overtime compensation (all hours are calculated at the regular rate of pay).
- Costs not specifically identified in the task’s scope of work or pre-approved in writing by ECOLOGY.

Task Goal Statement:

The goal of this task is to reduce pollution and natural resource consumption. RECIPIENT intends to do this via support for residents in reducing waste from single-use items and making informed consumption choices.

Task Expected Outcome:

With the Task Cost, RECIPIENT expects to reduce solid waste by approximately 19,500 pounds over the two-year grant period. RECIPIENT will estimate waste prevention achieved by replacement of single-use items with durable items and similar consumption changes. This will be done via surveys of residential participants regarding their waste habits before and after outreach. For example, participants in classes would complete survey(s) to gauge waste disposal before and after outreach. To receive a free item as a waste-prevention tool, a pledge and follow-up survey will be asked of the participant.

SCOPE OF WORK

Task Number: 3 Task Cost: \$81,786.54

Task Title: Organics Off-site Management

Task Description:

RECIPIENT will utilize consultant services to provide tailored technical assistance and education directly to multifamily residents and property managers, focusing on adding compost service and increasing usage of compost carts.

Work to perform may include:

- Door to door distribution of kitchen scrap containers, recycling bags, educational materials, and information to reduce contamination.
- Provision of bins and supplies to increase composting and recycling. For example, some complexes have benefitted from a recycling bin near mailbox areas (always paired with trash).
- Service adjustments to right size containers, adjust capacity, and potentially adjust locations (such as to ensure no compost or recycle bins are without a nearby trash bin so as to reduce contamination).
- Work with managers of properties to add compost service.
- Installation or updating of signage.
- Collaboration with property maintenance employees.
- Audits of the recycle and compost bins serviced by the haulers, both before and after assistance, to gather data towards the outcomes specified in this task.

Reimbursement for costs incurred by contractors to implement LSWFA funded activities identified in this task are subject to the same eligibility and reimbursement requirements as the RECIPIENT, and require ECOLOGY approval.

This task includes development and distribution of promotional materials in a variety of formats to encourage participation. RECIPIENT is encouraged to work with their ECOLOGY grant manager when developing promotional materials, and provide a draft copy for review and approval 10 business days prior to production and distribution of materials. RECIPIENT is reminded of provisions 3 and 19 of the General Terms and Conditions of this Agreement.

Eligible costs include:

- RECIPIENT time and benefits.
- Consultant time and costs necessary to perform the scoped work.
- Production of signage and related outreach materials.
- Approved compostable bags and organics scrap bins (see note below).
- Recycling bags and related outreach materials (see note below).
- Costs not listed here but pre-approved in writing by ECOLOGY.

Items that are considered entertainment are not eligible for reimbursement such as gift cards and movie tickets. LSWFA allows outreach materials that are:

- Overtime compensation (all hours are calculated at the regular rate of pay).
- Costs not specifically identified in the task’s scope of work or pre-approved in writing by ECOLOGY.

Task Goal Statement:

The goal of this task is to support multifamily customers in reducing waste, increasing recycling, increasing composting, and reducing contamination. This will be done by providing the infrastructure and education to make ongoing changes.

Task Expected Outcome:

With the Task Cost, during the grant period, RECIPIENT anticipates an increase of 4,000 pounds of organics, an increase of 4,000 pounds of recycling, and a decrease of 100 pounds of contamination. Visual audits of containers pre and post outreach will be performed for targeted areas, with an eye to container volume, how full containers are when serviced, frequency of service, and percent contamination. Ideally, audits will be performed just prior to collection of bin contents by the hauler, to gain the best understanding of volumes (which can convert to weights) of material and contamination collected. Sampling protocols will reference sampling methods noted in the LSWFA Guidelines.
