## **Conceptual Term Sheet for King County Permanent Supportive Housing Project at the La Quinta Inn Location in Kirkland**

### **PURPOSE**

The purpose of this term sheet is to outline some of the most important terms and conditions that the Kirkland City Council believes are necessary to maintain City support for the project. It is not intended to address all potential issues or agreements.

These concepts would be developed into binding agreements between King County (County) and the City of Kirkland (City) and/or King County and its facility operator (Operator) at the La Quinta Inn site.

The agreements anticipated by this Term Sheet will formalize the County management, allocation of services and operating funds, and corresponding requirements for this permanent supportive housing use in Kirkland.

The agreement between the County and City may be an Interlocal Agreement or another mechanism that memorializes and provides transparency and accountability on the commitments of the City and the County.

### **STATEMENT OF PRINCIPLES**

- Kirkland supports the Health Through Housing (HTH) program and wants an HTH facility in Kirkland.
- Kirkland believes La Quinta Inn can be a successful HTH site if King County and Kirkland can agree on the terms outlined in this document.
- Kirkland believes the La Quinta Inn site is unique among proposed HTH sites King County has acquired or is considering acquiring because it shares a property line with a large school. King County acknowledges Kirkland's belief while observing that there is also a HTH site at the former Northgate Extended Stay America hotel which is separated from Ingraham High School by one single family home parcel width.
- If La Quinta Inn is not selected by King County, Kirkland supports King County acquiring an alternative property in Kirkland for an HTH site.

### **COMMUNICATION**

Terms are needed to ensure ongoing communications between the County, City, Operator, and service providers. A communications plan should be developed and include a schedule for regular meetings between the parties to discuss performance of the permanent supportive housing, to work on any unexpected challenges, and to promptly resolve issues. The plan should also include a schedule for reports to the County and City legislative bodies that, among other things, include performance summaries and answer questions regarding site performance.

### **DISPUTE RESOLUTION**

A dispute resolution process should be included in the agreements to facilitate the prompt elevation and resolution of disputes that arise regarding operation of the permanent supportive housing use consistent with the terms and obligations of the agreements. If dispute resolution processes are not timely and successful, the parties need to have the ability to seek to enforce the terms and conditions of the agreements judicially.

### **CHANGES TO THE AGREEMENTS AND NOTIFICATIONS**

The agreements should include processes for amending the agreement and for providing required notifications.

### **SOME KEY CONCEPTS AND AGREEMENT TERMS**

- a. City opportunity to review and approve County selection process and criteria for the Operator.
- b. Review and approve terms and conditions of Operator agreement, including those related to subjects such as operating standards, screening criteria, compliance with laws, standards of care, breach and cure, indemnification, and insurance.
- c. County and Operator agree facility will be used exclusively for permanent supportive housing and for no other purpose or use without prior City approval.
- d. The County and Operator shall maintain strict compliance with existing state law limitations on registered sex offenders living within 880 feet of public and private schools.
- e. The La Quinta Inn site shares a property line with a large school. As a result, the agreements will include provisions that individuals who do not meet the operating and screening protocols of the City and County-approved facility operator and other requirements within the City and County-approved Operator agreement will not be housed within the facility.
- f. The City will partner with King County on exploring additional permanent supportive housing sites in Kirkland not adjacent to schools that could also provide permanent supportive housing to persons who are not accepted for housing by the City and County-approved facility operator at the former La Quinta Inn.
- g. Provisions in the County agreement with the City addressing these topics, and those below, that include City and County remedies in the event of breach or default by the County, the City, or the City and County-approved facility Operator, including remedies such as specific performance and injunctive relief.

### **OTHER KEY AGREEMENT TERMS**

The agreement between the County and City should require the agreement between the County and its Operator to require the Operator to provide at least the following items:

1. Supportive housing staffing required 24 hours per day and seven days per week.
2. No designated supervised/safer consumption site (SCS), supervised/safer injection facility (SIF), or supervised/safer injection service (SIS).
3. No car camping or camping of any kind at the site.

4. Coordination with local service providers and City staff to identify and prioritize eligible homeless individuals in Kirkland and the Eastside so that people requiring permanent supportive housing are able to access that resource within their community.
5. Comprehensive services provided including behavioral health treatment (including substance use disorders), employment assistance, job training, education, and transportation.

**Terms to be Developed Following Operator Selection**

1. A community relations plan shall be developed to address:
  - a. Potential impacts on nearby schools, businesses, and/or residences including a proposed resolution and mitigation approach.
  - b. Expectations between the local community, site operators, service providers, and city representatives (e.g., data and performance measures, program descriptions and services offered, opportunities to volunteer and donate).

A plan for the coordination of services between the operator, the County and City of Kirkland public safety staff (e.g. police, fire, community responders), including any private security personnel employed by the operator of the site and any surrounding schools or business owners; and a clear process and City contact for circumstances in which community concerns are not responded to by the Operator in a timely fashion;
  - c. Provision of County and Operator contact information to respond 24/7 to City and community concerns;
  - d. Identification of performance metrics and reporting plan that will be used to track compliance with the safety and security plan
