1995 BUDGET
NON-OPERATING FUNDS**

The Non-Operating portion of the budget is composed of three distinct sections defined as follows:

SPECIAL REVENUE AND RESERVE FUNDS

Special Revenue Funds are used to account for revenues that are dedicated for specific purposes either through statute or Council policy. Reserve Funds are used to accumulate resources for future projects, expenses, or contingencies. With the exception of the Park and Municipal Reserve and Contingency Funds, all resources of the following funds are dedicated to the specific purposes for which they were established. The Contingency Fund can be used for any emergency purpose designated by Council. The Park and Municipal Reserve is actually composed of many sub-accounts, many of which are dedicated for specific purposes such as Criminal Justice or Drug Seizure funds. The Park and Municipal Reserve also contains two Council policy reserves - the General Operating Reserve (the City's "rainy day fund") and the General Capital Projects Reserve.

DEBT SERVICE FUNDS

Debt Service Funds account for the accumulation of resources and the payment of long-term debt. Reserves are required in General Obligation Bond Funds to assure that adequate cash is available to make debt payments early in the year before all revenue is received. Utility debt funds are required to have a reserve equivalent to the highest annual debt service payment for each issue. The Public Works Trust Loan Fund provides for loan repayment as well as acknowledging the receipt of loan proceeds which are subsequently transferred to Capital Project Funds for expenditure.

CAPITAL PROJECTS FUNDS

Capital Project Funds are used for two purposes – capital reserves and capital construction of projects approved in the Capital Improvement Program (CIP). The General Capital, Grant Capital and Utility Capital Projects Funds account for expenditures for projects in the first year of the CIP. The Grant Capital Fund also includes the Grant Match Reserve established by Council policy. The remaining funds represent holding accounts for money that will be used in future years to fund the remaining five years of the CIP.
