

ORDINANCE 3893

AN ORDINANCE OF THE CITY OF KIRKLAND RELATING TO INNOVATIVE HOUSING DEMONSTRATION PROJECTS, AND EXTENDING AN INTERIM ZONING ORDINANCE TO REGULATE SUCH PROJECTS TO DECEMBER 1, 2003.

WHEREAS, the City has the authority to adopt an interim zoning ordinance pursuant to RCW 35A.63.220 and 36.70A.390; and

WHEREAS, the Kirkland City Council has determined that there is a need for an interim zoning ordinance to regulate innovative housing demonstration projects; and

WHEREAS, pursuant to RCW 35A.63.220 and 36.70A.390, a public hearing on the interim zoning ordinance herein established was held prior to the adoption of this ordinance; and

WHEREAS, the City Council desires to extend the interim zoning ordinance which was part of Ordinance 3856 passed on September 3, 2002;

NOW, THEREFORE, the City Council of the City of Kirkland do ordain as follows:

Section 1. Pursuant to Ordinance 3856, two proposals for innovative housing demonstration projects have been selected to be allowed to apply for Process IIB permits. The City Council finds that renewal or extension of an interim zoning ordinance until December 1, 2003 is necessary to regulate the two demonstration projects. Sections 2, 3, and 4 of this Ordinance shall serve as the interim zoning ordinance for the two projects.

Section 2. Process IIB permit.

a. The City shall use Process IIB as described in Chapter 152 of the Kirkland Zoning Code to review and decide on innovative housing demonstration projects, except that the notice of the application shall be given to property owners within 500 feet of any boundary of the subject property. In addition, a neighborhood meeting following guidelines established by the Planning Department and including attendance by City staff shall be required prior to application submittal.

b. In addition to complying with the approval criteria stated in Section 152.70.3 of the Kirkland Zoning Code, the applicant must demonstrate that:

i. The impacts of the proposed development will be no greater than the traditional development that could be constructed on the property with respect to total floor area of structures and structure sizes.

ii. The proposal is not larger in scale and is compatible with surrounding development with respect to size of units, building heights, roof forms, building setbacks from each other and property lines, number of parking spaces, parking location and screening, access, and lot coverage.

iii. The proposal provides elements that contribute to a sense of community within the development by including elements

such as front entry porches, common open space, and common buildings or common spaces within buildings.

iv. Any proposed modifications to requirements of the Kirkland Zoning Code or KMC Title 22 (subdivision ordinance), other than those specifically identified in Paragraph c. of this Section or in Sections 3 or Section 4 of this ordinance, are important to the success of the proposal as an innovative housing project.

c. In order to meet the goals of the innovative housing demonstration program, there will be flexibility with regard to some normally applicable regulations and requirements. Standards listed in this Paragraph c. as well as parameters identified in Sections 3 and 4 of this ordinance will apply to innovative housing demonstration projects and will prevail if they conflict with normal regulations. All other regulations and requirements of the City of Kirkland will continue to apply, except that applicants may propose additional modifications to the Kirkland Zoning Code or KMC Title 22 (subdivision ordinance), as provided for in Paragraph b. of this Section.

i. The minimum lot size, restriction of not more than one dwelling unit per lot, maximum Floor Area Ratio, and minimum number of required parking spaces found in Kirkland Zoning Code Section 15.10 and 17.10 shall be replaced by the standards identified in Sections 3 or 4 of this ordinance.

ii. The vehicular access standards of Kirkland Zoning Code Section 105.10 shall be determined based on the number of single-family units that the equivalent innovative housing units are replacing. The modification provisions of Kirkland Zoning Code Section 105.103 may be used to allow further flexibility to the vehicular access requirements for the proposed project.

iii. The density limitations identified in the Land Use Map of the Kirkland Comprehensive Plan shall be determined to have been met as long as the proposed project does not exceed the equivalent unit calculation identified in Sections 3 or 4 of this ordinance.

iv. Application fees for the Process IIB review of the proposed project shall be based on the number of single-family units that the equivalent innovative housing units are replacing.

v. Impact fees under Kirkland Municipal Code Chapters 27.04 and 27.06 for the proposed project shall be assessed at the rates for multifamily dwelling units, as identified in Appendix A of Kirkland Municipal Code Chapters 27.04 and 27.06.

d. The City's approval of an innovative housing project does not constitute approval of a subdivision, a short plat, or a binding site plan.
