

ORDINANCE 4015

AN ORDINANCE OF THE CITY OF KIRKLAND RELATING TO SOLID WASTE MANAGEMENT AND AMENDING SECTIONS 16.08.012, 16.12.030 and 16.12.050 OF THE KIRKLAND MUNICIPAL CODE.

The City Council of the City of Kirkland do ordain as follows:

Section 1. Section 16.08.012 of the Kirkland Municipal Code is hereby amended to read as follows:

16.08.012 Waste stream reduction plan.

The waste stream reduction plan applicable to the entire city of Kirkland is composed of the following elements:

(1) Goal. The goal of the waste stream reduction plan is to divert from the solid waste disposal stream certain types or classes of materials and thereby reduce the amount of solid waste delivered to the King County approved solid waste disposal sites, including Cedar Hills. Performance goals related to waste diversion rate, tonnage of waste reduced and percentage of customers at each service level have been established to monitor progress.

(2) Program Elements.

(A) Effective January 1, 1990, the city established a local program for collection and disposal of household hazardous waste materials. (The program elements are contained in Exhibit A to Kirkland Resolution R3566.)

(B) Provision for alternative collection and/or handling of special commercial wastes as defined in Section 16.04.155, in order that special commercial wastes, which either are or have potential to be nonsolid waste materials which have been determined by the King County solid waste division to be nonacceptable for disposal at Cedar Hills and thereby require a special handling. (The program elements are set forth in Exhibit A to Kirkland Resolution R3466.)

(C) Cooperate and jointly participate with the King County solid waste division in programs for waste reduction, education and publicity, including programs supporting use by all segments of the community of products manufactured in whole or in part from recycled materials.

(D) Yard Waste Recycling. The city of Kirkland has determined there is within the King County area a market for the recovery and utilization of yard waste. The city, during 1989, conducted a pilot voluntary yard waste pickup collection recycling program, which resulted in a thirty-seven-percent diversion from and reduction in the Kirkland to Cedar Hills waste stream. Beginning in March 1990, the city has instituted a source separated yard waste curbside collection and recycling program on a voluntary basis for residential customers. (The program elements are contained in Exhibit A to Resolution R3466.)

(E) Other Recyclable Materials. Subject to the then existence of economically viable markets for the following recyclable materials, establishment of programs either mandatory or voluntary within the implementation timelines, required by Chapter 431 Laws of 1989 (and where possible the earlier timelines proposed by the King County solid waste division), to include collection and disposal for recycling of the following:

(i) Newspapers;

- (ii) Mixed papers;
- (iii) Glass bottles, recyclable plastic bottles and aluminum cans;
- (iv) Organic waste;
- (v) Electronic waste;
- (vi) Textile waste;

(vii) The voluntary recycling by or for commercial customers of cardboard, newspapers, mixed, computer and office papers, yard waste, and construction waste. Depending on cost analysis and available markets, these recycling programs may be carried out through utilization of any of the following collection and disposal options: utilizing the current city solid waste contract collector, a third party collector or drop box or recycling buy-back centers. Where drop box or recycling buy-back centers are not utilized, recycling collection shall to the extent feasible be accomplished curbside;

(viii) Other recyclable materials at such time as there exists for each such material an economically viable market.

(F) Penalty for Excessive Waste Generation. Whenever a solid waste customer receives notice from the solid waste collector of excessive waste generation, such customer shall make application to the city of Kirkland for an excessive waste generation permit.

The city shall, upon request of the customer, issue an excessive waste generator permit and shall notify the solid waste collector of its issuance.

There shall be no charge for the issuance of an excessive waste generator permit. However, the city reserves the right to hereafter impose a waste stream reduction incentive charge or excessive waste generator permit fee on excessive waste generators. The imposition of such fee or charge and the amount thereof shall be established by ordinance.

(G) Multifamily Residential Recycling. Multifamily residential customers may choose and by the city are urged to choose to participate in ~~separation and~~ placement for collection for recycling the following materials: newspapers, mixed papers, and recyclable bottles, cans and plastic containers. Recyclable materials will be collected on the same pickup schedule as solid waste collections. Recyclable materials shall be placed in recycling carts distributed by the city's solid waste collection contractor. Multifamily residential customers using containers will receive two or more recycling carts as determined by the size of the solid waste container:
