<sup>1</sup>This is a list of organizations in which the City is involved or that, historically, have supported policies that align with previous or current Council goals, including policies that may advance initiatives identified in the City-adopted plans listed above in the General Principles. Inclusion on this list does not imply automatic support of an organization's legislative agenda. The primary purpose of this list is to aid Kirkland's Legislative Work Group in monitoring legislation and to signal where the City, with subsequent discussion by the Council, may choose to invest additional effort on advocacy. Intentionally keeping this list narrow allows the Legislative Work Group to focus on high-priority policies and bills, while remaining open to dedicating additional time and effort to particular legislation, if and when priorities align.
