## MEMORANDUM REPORT:

REPORT PREPARED: June 7, 1973 FILE NO.: SUB-73-12(H)  
DATE: Jones Associates, Inc. HEARING BODY: Planning Commission  
PROPERTY LOCATION: Approx. N.E. 60th St. and 112th Ave. N.E. HEARING DATE: June 14, 1973  
SUBJECT: APPLICATION FOR FINAL SUBDIVISION (PATRICK PLACE)

## BACKGROUND ANALYSIS:

At this point the Preliminary Subdivision of Patrick Place has gone through the entire review process and has been approved by the City Council per Resolution No. 2175.

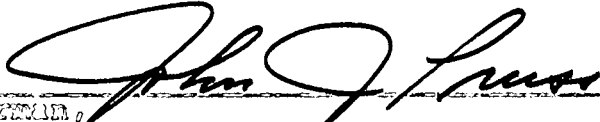

This application is now before the Planning Commission for recommendation on the Final Subdivision Application of Patrick Place. As a result of the review process on the Preliminary Plat and Staff discussions with the developer, the approval of the Final Subdivision of Patrick Place should be conditioned on the following items, which also take into account the final recommendations of the Houghton Community Council:

1. That the portion of 112th Ave. N.E. adjacent to the plat is to be improved to City specifications as follows:
  - a. A roadway section 20 feet in width from the curb is to be installed.
  - b. A typical curb and gutter is required.
  - c. A 4 foot wide sidewalk is to be installed.
2. That the area of the plat lying adjacent to N.E. 60th Street is to be improved to City specifications as follows:
  - a. A 4 foot wide sidewalk shall be installed connecting to that sidewalk which will be installed on 112th Ave. NE.
  - b. A typical curb and gutter is to be installed.
  - c. That area lying between the curb and existing pavement of the street is to be filled as required by the Public Service Director.
3. An easement to be granted to the general public for pedestrian and bicycle access upon the easterly 10 feet of Lots 10, 11 and 12 and an easement under and upon the southerly 5 feet of Lot 12 together with the northerly 5 feet of Lot 11 is to be granted to the City of Kirkland and the general public for purposes of installing and maintaining sanitary sewer lines and pedestrian and bicycle access respectively. Further:

- a. Setbacks on Lots 11 and 12 are to be measured from the easement line to allow for a 2' setback for future development of the pedestrian easement.
- b. The above-mentioned easements be accepted in lieu of the 3.5ft open space requirement.
- c. That since the above easements do not at this time connect to an on-going system, they not be required to be improved.
- d. That all trees, except for those which may be a danger to the people who will be living in the subdivision, be saved which are not located within the right-of-way or where structures will be located. (This would be as required by the clearing plan submitted.)
5. That all utilities be installed, including but not limited to, storm sewers, water mains, sewer mains, and lighting, and be developed to City specifications and the requirements of the Subdivision Ordinance.
6. That a stop sign be required to be installed by the developer at the exit of the proposed N.E. 61st Place.
7. That a fire hydrant is to be located in the approximate area of Lot 6 in the right-of-way of N.E. 61st Place.
8. A 5 foot permanent utility easement be granted to the City of Kirkland along the entire length of the northerly property line.
9. That the amount of bonding required be determined by the Public Service Director for all required public improvements not completed prior to the granting of the final subdivision by the City Council, and that this bond be submitted to the City prior to the City Council granting said approval.

RECOMMENDATION:

We hereby recommend approval of the final subdivision of Patrick Place subject to the conditions as listed earlier in this report.
