CITY OF KIRKLAND

1983 COMMUNITY DEVELOPMENT BLOCK GRANT LOCAL FUNDING GUIDELINES

The City of Kirkland is one of the oldest communities in the area. It is located along the northeastern side of Lake Washington and serves over 19,000 in population. Quiet well kept residential areas consisting of both new suburban developments and older, more established neighborhoods surround the business district. Remaining land use is comprised of smaller sub-regional and neighborhood centers, a few light industrial parks, and a number of schools and churches.

The use of Block Grant funds will be concentrated in neighborhoods surrounding the central business district where low and moderate income families live in older housing stock. The central business district which serves these older neighborhoods will also be given priority. Where possible, Block Grant funds will be used for improvements in City parks located primarily in low and moderate income neighborhoods. Services which can be provided within the King County funding guidelines will continue for low and moderate income families.

Funding guidelines for the City of Kirkland will concentrate on projects that solve major health or safety needs for all citizens, but particularly for low and moderate income families. Depending on the outcome of a current Senior Housing project, emphasis will continue to be placed on affordable senior housing for Kirkland's large elderly population. Priority will also be given to projects which improve pedestrian traffic such as sidewalks and pathways often used by children and senior citizens. Another category of importance will be parks and recreational facilities. Other projects not included here may be considered for Block Grant funding as long as there is community support, and/or reduction in slum and blight, or positive impact on low and moderate income families.
