- (a) Principal benefit to low and moderate income people.
Provide documentation:

Provides for rehabilitation of recently acquired building for handicapped access when converted to community recreation use.

- (b) Prevents or eliminates slum or blight.
Explain:

9. Problem Statement (See instructions)

The problem this project addresses is the need for handicapped access for a community center in South Juanita. Currently, the 12,000 square foot building scheduled for conversion to community recreation use is not fully accessible to the handicapped.

10. Project Description (See instructions)

The City of Kirkland recently purchased a 5.5 acre former church site for use as a community center and neighborhood park. The project calls for renovation of an existing 12,000 square foot building into a community recreation facility. The renovation will bring the building into compliance with current building codes for handicapped accessibility. Maintenance and operation funds will be provided as part of the City of Kirkland's overall operating budget.

Improvements will include accessibility improvements to the main public entry, restrooms and doorways.
