

RESOLUTION R-3637

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF KIRKLAND ADOPTING THE LOCAL HAZARDOUS WASTE MANAGEMENT PLAN FOR SEATTLE-KING COUNTY AS AMENDED ON JANUARY 12, 1990 BY THE SOLID WASTE INTERLOCAL FORUM.

Whereas, Section 220 of Chapter 70 105 of the Laws of the State of Washington requires that each local government or combination of local governments to prepare a local hazardous waste plan which shall be based on State guidelines, and

Whereas, it was determined that moderate risk waste is being disposed of with solid waste, in sewers and septic systems, or on other lands, which may be improper for reasons of public health and environmental protection, and

Whereas, the City of Kirkland and King County entered into an interlocal agreement whereby the parties agree that they shall cooperate in the County's development of a Comprehensive Solid Waste Management Plan including moderate risk waste; and

Whereas, King County in cooperation with the City of Seattle, METRO and Seattle/King County Department of Public Health, has completed a local Hazardous Waste Management Plan for Seattle-King County including suburban cities who signed the interlocal agreement referenced above, that is designed to meet State guidelines and to significantly reduce and divert hazardous waste from the solid and liquid waste stream, and issued on August 28, 1989 a final plan and environmental impact statement, and

Whereas, the City, through the Suburban Cities Association, participated in the Solid Waste Interlocal Forum, which through Resolution No. 90-001 recommended adoption of the plan, as amended in the Plan Addendum, by King County and the cities within the County, and

Whereas, under the current plan, the budget for local hazardous waste management programs will be developed by the Management Coordination Committee and recommended to the Seattle-King

County Board of Health for review and approval and will be funded in party by State funding with the remainder funded through fees levied on solid waste collection (80 percent) and sewer fees (20 percent) which will be passed on to the public; and

Whereas, the State of Washington planning guidelines require that the plan be adopted by resolution by all participating cities, and

Whereas, the Cities of Bellevue and Renton have previously conditionally adopted the Local Hazardous Waste Management Plan subject to clarification of certain issues, and

Whereas, by letter dated August 8, 1990 addressed to the Mayor of the City of Kirkland and signed by all members of the Management Coordination Committee for the Local Hazardous Waste Management Plan, those issues have been either resolved or clarified to the satisfaction of the City of Kirkland, now, therefore

Be it resolved by the City Council of the City of Kirkland as follows:

Section 1 The City of Kirkland hereby adopts that certain Local Hazardous Waste Management Plan for Seattle-King County as amended on January 12, 1990 by the Solid Waste Interlocal Forum. Adoption is made with the understanding that the Seattle-King County Hazardous Waste Management Coordination Committee and the Interlocal Forum shall continue their evaluation of the issues and details relating to the funding mechanism, including establishment of an equitable rate structure and continuing evaluation of plan implementation.

Passed by majority vote of the Kirkland City Council in regular, open meeting this 20th day of November 1990
