EASEMENT

Grantor, City of Kirkland, a municipal corporation, for good and sufficient consideration, grants and conveys to Grantee, City of Seattle, a municipal corporation, on behalf of the general public, a perpetual easement for use by Grantee for purposes of construction, installing, maintaining and operating devices for the transmission of electricity, under, over, through and across the following described property:

That portion of closed Lake Washington Boulevard, (shown on exhibit "A") which lies between its intersections with "new" 98th Avenue northeast, as it was established under King County Recording No. 7306290581, and the north and south ends of said closed Boulevard, located in the northeast quarter of Section 31, Township 26 North, Range 5 East, W.M.

Subject To The Following:

Grantee may attach devices for the transmission of electricity along the side or underside of any structure which Grantor maintains above the surface of the water or the land where the present causeway is located, provided that, Grantee's devices may be attached at a level no higher than the existing pavement and will be protected from people who may contact the side of the causeway.

Grantee may not remove or disturb any portion of the existing causeway, even temporarily, in exercising its rights herein.

Grantee shall promptly pay to Grantor the cost of any alteration, restoration and other changes or repairs to Grantor's facilities reasonably necessary due to Grantee's activities on Grantor's property.

Grantee shall at all times exercise its rights herein in accordance with all applicable statutes or rules of any public authority having jurisdiction, specifically including that designs, work, or maintenance must be in compliance with environmental regulatory processes of the City of Kirkland and the State of Washington.

During installation and maintenance of electrical transmission equipment, Grantee will minimize weight and noise of equipment used and disturbance of sensitive areas to the greatest extent consistent with standard construction and maintenance techniques.

Grantee agrees that any high voltage transmission facilities which may be located in the City of Kirkland to

Grantee agrees to indemnify, defend, and save harmless Grantor for any claim, real or imaginary, filed against Grantor, alleging fault on the part of Grantor or Grantee and arising out of the subject matter of this document; provided, however, that such provision shall not apply to the extent that the damage or injury claimed arises out of the fault of Grantor or its officers, agent, or employees. "Fault" as herein used shall have the same meaning as set forth in RCW 4.22.015.

This easement shall be a covenant running with the land and shall be binding on the Grantor's successors, heirs and assigns.
