PROJECT MODIFICATION & DELETION SCHEDULE

2000-2005 Preliminary to 2000-2005 Final

The Preliminary to Final Project Modification and Deletion Schedule provides a brief explanation of why a project has changed from the 2000-2005 Preliminary CIP to the 2000-2005 Final CIP. Projects were modified for a variety of reasons including loss of revenue from the passage of Initiative 695, reduced funding from sales tax, increased cost estimates, and increased capital funding due to increased Surface Water Management Utility rates. These situations have caused projects to change in several ways including timing changes between years, projects moving between unfunded and funded status and new projects being funded. Project modifications that require additional funding have either been reviewed by Council already or are addressed within the annual funding allocation within the CIP. The final CIP document will include revised detailed project descriptions reflecting these changes.
