New text to be added to the Lakeview Neighborhood Chapter, page XV.A-8, following discussion of PLA 3, and preceding discussion of PLA 15:

Planned Area 4: South Kirkland Park & Ride

The property containing the South Kirkland Park and Ride is about seven acres in size, with approximately equal portions of the site lying within the cities of Kirkland and Bellevue. The site is owned by King County, and currently developed as a Park and Ride with approximately 600 parking stalls and a transit facility. The site is generally level, but has a steep slope along the eastern and southeastern boundaries within the city of Bellevue section of the site. Tall trees and heavy vegetation are present within the hillside areas.

King County has identified the South Kirkland Park and Ride as a potential site for transit-oriented-development (TOD) for several years. Affordable housing is generally included in King County TOD projects, and is anticipated to be a significant component of future residential development at the South Kirkland site. The City of Kirkland has identified transit oriented development at the South Kirkland Park & Ride as a key affordable housing strategy. The City supports multifamily residential as the predominant use of the site in a transit-oriented-development project, with a variety of other uses to be allowed as well.

The South Kirkland Park and Ride property may continue as a transit facility with the potential for office use. Alternatively, if the site is redeveloped with TOD, the principles discussed below should be used to guide development at the Park and Ride.

Provide for Affordable housing

- ◆ Ensure that transit-oriented-development provides for mixed-income housing, including a minimum of 20% of total units to be affordable to low and/or moderate income households.

Development should strive to achieve greater affordability for at least 20% of its units, with an additional 25% to be affordable to median income households, through the use of as many funding sources as are necessary.

Ensure High Quality Site and Building Design

- ◆ Develop implementing regulations for coordinated development of the entire site.

Establish standards for building height and mass that acknowledge site topography and existing vegetation as factors for consideration.

- ◆ Implement design standards for Planned Area 4.

Ensure that regulations support appropriate building scale and massing throughout the site, produce buildings that exhibit high quality design and incorporate pedestrian features and amenities that contribute to a livable urban village character for the TOD.

Provide guidance for the streetscapes along NE 38th Place and 108th Avenue NE to ensure buildings do not turn their backs on the streets and development provides a welcoming and attractive presence at this gateway to Kirkland.

Protect the vegetative buffers and significant trees along the site's eastern and southeastern borders through development standards.

Minimize the visual impacts of parking facilities from adjacent rights-of-ways.

- ◆ Foster the creation of a vibrant and desirable living environment through the use of high quality design, public amenities and open space.
- ◆ Promote sustainable development through support of green building practices at the Park and Ride.

Maximize Effectiveness of Transit-Oriented-Development (TOD)

- ◆ Create the opportunity for Transit-Oriented-Development at the site through the development of standards and regulations that support necessary densities.
- ◆ Expand opportunities for retail development, incidental office development, and childcare facilities at the site to serve users of the Park and Ride, site residents and others.
- ◆ Provide opportunities for all types of users of the site to access the BNSF corridor, however it is developed, along the eastern boundary of the Park and Ride site.
- ◆ Reduce the need for parking at the site through regulations that promote shared parking between uses, and incentives to support alternatives such as shared car services and electric cars.
- ◆ Mitigate traffic, visual, noise and other impacts from more intensive development of the Park and Ride to the surrounding street network and residential areas.

Coordination with the City of Bellevue

- ◆ Coordinate an approach for the review and approval of development proposals for the site with the City of Bellevue.

- ♦ Manage emergency services to the site through agreements with the City of Bellevue.

Existing text to be deleted from the Lakeview Neighborhood Chapter, page XV.A-17:

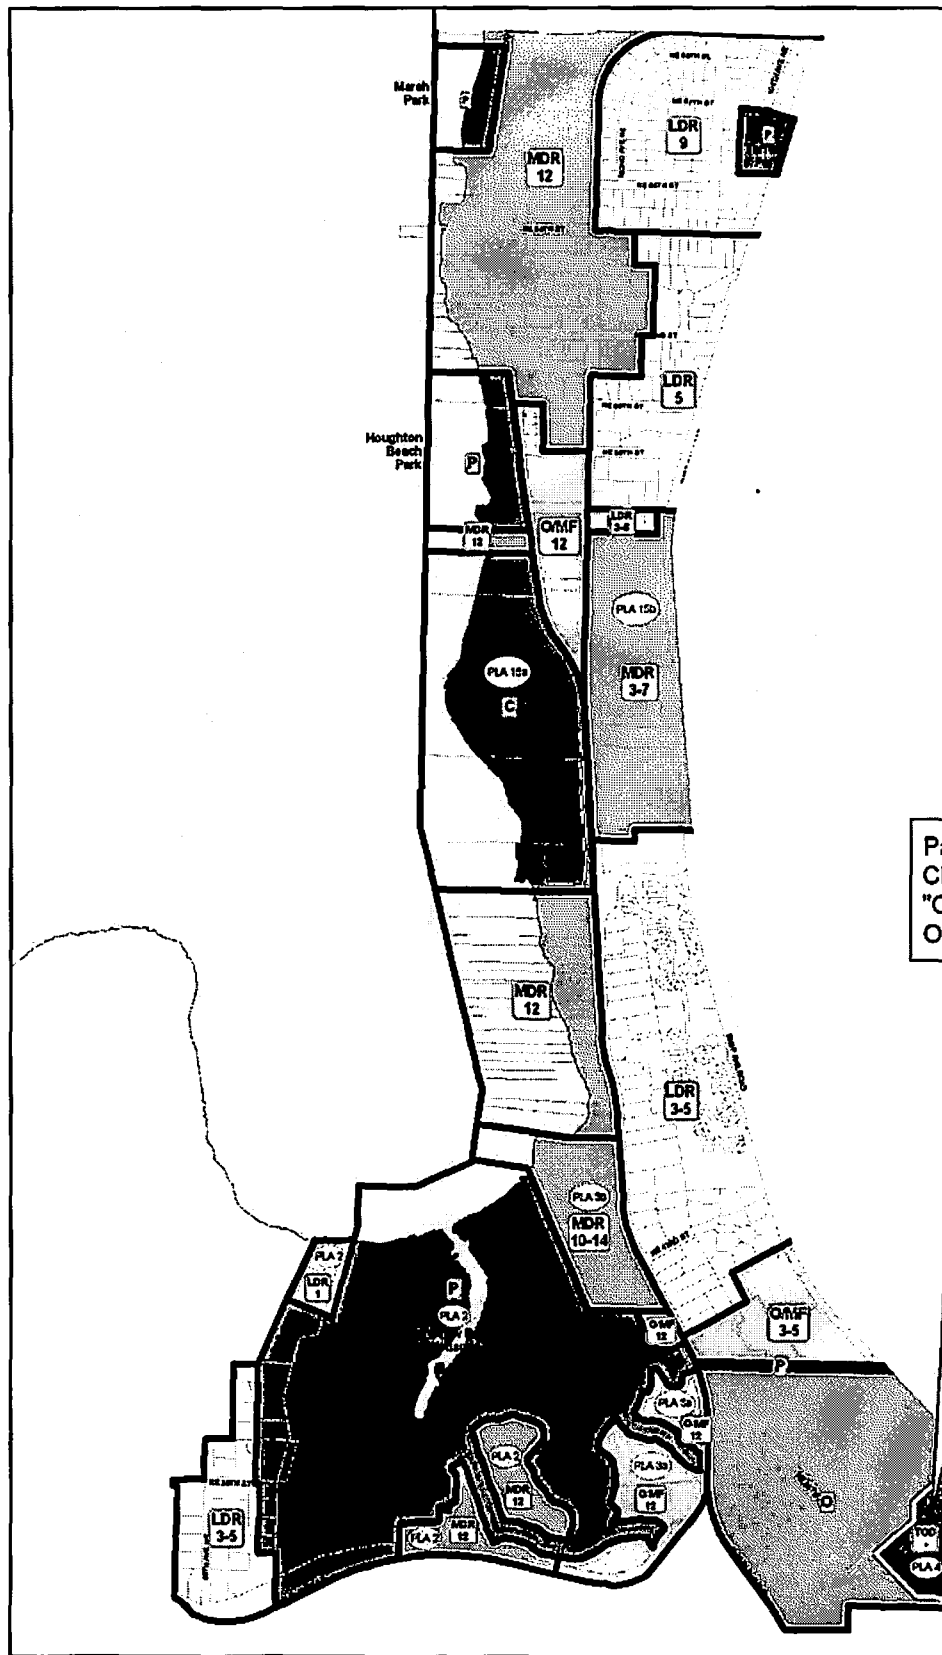

"The Metro Park and Ride lot at the southern end of the Lakeview Neighborhood provides a valuable local and regional transportation function. Any future expansion of this facility should be carefully reviewed to minimize visual and traffic impacts on the surrounding area".

New text to be added to Land Use Chapter, page VI-4:

Transit-Oriented Development (TOD) – Area where a higher intensity mix of uses is allowed, together with transit facilities, in order to support the increased use of transit and reduce reliance on roads and single-occupant vehicles.
